

## ELECTION BULLETIN #19

September 24, 2010

### Number of Electors Tabulator Distribution Campaign Expenses

#### **Number of Electors**

Attached you will find the number of properties and number of electors in each Ward for your reference as provided in an e-mail dated September 2, 2010.

#### **Tabulator Assignment List**

Further to Bulletin #17 regarding the number of Scrutineers permitted at each Voting Location, we have received a few inquiries regarding the number of tabulators at each Voting Location. The 2010 Tabulator Assignment List is attached for your reference. Please note that the Number of Electors indicated for each Voting Location is based on information from the 2006 election and used in preparation for the 2010 election.

#### **Campaign Expenses**

We have received a few inquiries regarding the use of and accounting for campaign materials from a previous election. Any election materials being used from previous campaigns must be assessed at their current market value. Representatives from the Ministry of Municipal Affairs and Housing advise that this regulation is in place to ensure a level playing field related to expense spending limits. For example, if a candidate has election signs remaining from a previous campaign, those signs will have to be valued at their current market value, not the actual cost from when they were originally purchased.
