

Dear Applicant;

As a result of the new Provincial Nutrient Management Regulations that took effect September 30, 2003, any Building Permit application for a structure that will house farm animals may be subject to this new regulation. In order to allow us to assist you in determining if your proposed construction is subject to these new regulations please answer the following questions.

Glenn Middlebrook  
Chief Building Official

1. Is the proposed building to house livestock? Yes  No  If the answer is NO, then no additional information is required. If YES, then please proceed to question #2.
2. Is the proposed farm operation a new livestock operation? Yes  No
3. If the answer to question 2 is Yes, then complete the table below with the types and numbers of how many animals **will be housed** in the proposed structure. (Please see the attached sheet for the different classifications of animal types)

Type of Animal	Number of Animals

4. If the answer to question 2 is No please complete the following chart below. (Please see the attached sheet for the different classifications of animal types).

Type of Animal	Existing Number of Animals	Additional Number of Animals
