

Shaws Creek Subwatershed Study Phase II & III Public Consultation – July 30, 2009

Credit Valley Conservation, in partnership with the local municipalities and provincial ministries, is conducting a study of the environmental features and function of the Shaws Creek Subwatershed (see map on reverse). We would appreciate your comments with respect to the material presented today, or in regards to any other issues, which you feel are relevant to this study.

Please drop your comment form in the box provided, or mail, fax or email the completed by **August 30, 2009** to:
