

Invitation to Public Information Forum Comprehensive Broader Scale Environmental Study Caledon Aggregate Resource Area 9-A

You are invited:

The Town of Caledon, Region of Peel, Credit Valley Conservation, and James Dick Construction Limited (JDCL) invite you to attend a Public Information Forum regarding the Comprehensive Broader Scale Environmental Study (CBSES) for Caledon Aggregate Resource Area 9-A and related lands. The Public Information Forum has been scheduled for January 22, 2008 from 7:00 pm to 9:00 pm at the Caledon Ski Club, 17431 Mississauga Road (just north of the Forks of the Credit Road) in the Town of Caledon.

What to expect:

In order to provide information to the public regarding the CBSES, and seek public input, the Town of Caledon, Credit Valley Conservation, Region of Peel and James Dick Construction Limited, have been jointly managing a public consultation program, with input from the Coalition of Concerned Citizens. A Public Information Forum was held on January 25, 2007 regarding the draft Part A Report, and an "Objectives Workshop" was held on February 27, 2007. The focus of this third and final Forum will be the presentation of information relating to the draft Part B and draft Part C Reports that were released in June and October 2007 respectively.

Robb Ogilvie (of Ogilvie, Ogilvie & Company) is an independent public facilitator who has been retained to chair and facilitate this Public Information Forum.

The Forum will be organized as follows:

- 7:00 - 8:00 Presentations from the Forum facilitator, Town of Caledon, and James Dick Construction
- 8:00 – 8:50 Facilitated Discussion of Presentations
- 8:50 – 9:00 Concluding Remarks and Next Steps

This Forum is the third and final public consultation session dealing specifically with the CBSES. There will be a further public meeting organized by the Town in the fall of 2008 regarding the Rockfort Quarry application and the final CBSES.

The Comprehensive Broader Scale Environmental Study:

A Comprehensive Broader Scale Environmental Study ("CBSES" or the "Study") for Caledon Aggregate Resource Area 9-A, and functionally related lands (refer to map below), is being prepared to address the policies of the Town of Caledon Official Plan. The Study is being completed by James

Dick Construction Limited (JDCL) who have applied for a quarry license on a property known as the Rockfort Quarry lands, which is located within Caledon Aggregate Resource Area 9-A. The Study is structured into three main parts: Part A: Ecosystem Characterization; Part B: Sensitivity Analysis; and, Part C: Implementation.

A revised draft Part A Report was issued in November 2006. The draft Part B Report was issued in June 2007 and the draft Part C Report was issued on October 30, 2007. Copies of these reports are available for review at the Town of Caledon and CD copies can also be obtained by contacting the Town of Caledon or the Coalition of Concerned Citizens.
