MESSAGE FROM THE CHAIR

CCCGT 2023

The Caledon Council Community Golf Tournament returns for another exciting year! Over the last 20 years, this event has put over \$1 million back into our beautiful community. And really, that's what this event is all about, community.

On behalf of my council colleagues, as the Chair of the Golf Tournament, I'm excited to let you know of a very important cause that will be growing within Caledon. The National Wildlife Centre and their President, Dr. Sherri Cox, are an important piece of the interconnection of humans, wildlife and the environment.

We need your help in raising critical funds to advance this project, and I look forward to introducing you to our friends at the National Wildlife Centre and working to make Caledon an even better community.

Councillor Lynn Kiernan, Chair

Caledon Council Community Golf Tournament 2023

NATIONAL WILDLIFE CENTRE

MISSION

The National Wildlife Centre helps native wildlife through programs aimed at conservation goals to protect ecosystems, populations of wild animals, and the health of individual animals.

FUNDING: THE FIELD HOSPITAL

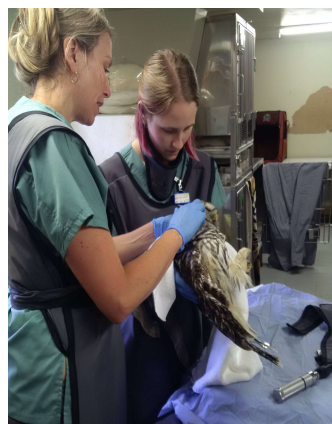

Since the NWC was established in 2014, the centre has cared for more than 5,000 native wild animals, and more than 200 species, including threatened and endangered animals.

Currently, NWC staff operate as a mobile response unit, utilizing other facilities to perform surgeries. The next step in their evolution is toward growth and permanency. Caledon will soon become the home to a multi-phased expansion project of the NWC. On a 100-acre lot in Caledon, a new wildlife centre will be built, that will train more professionals and treat more animals on a national level.

Funding from the Caledon Council Community Golf Tournament will go toward Phase One of this exciting transformation.

Phase one: Building a wildlife field hospital to immediately service injured, sick or orphaned animals. The facility will be mostly clinical space and open to the public allowing NWC to service the Caledon region and surrounding communities such as Brampton, Orangeville and Guelph, as well as a surgical space to support wildlife rehabilitators from across Ontario.

Phase two: Building a Centre of Excellence, a new state-of-the-art 26,000 sq. ft. facility. The centre will serve as NWC's National HQ, clinical unit, and training hub of new discovery and dissemination of knowledge in support of the next generation of wildlife specialists across Canada.

SPONSORSHIP PACKAGES

PLATINUM - \$10,000

- TWO Foursomes
- Logo on Welcome Banner
- Banner placement and Podium Recognition at reception
- Logo exposure on website
