Arts & Crafts

INTRO TO ART

Do you have a budding artist in the family? This multi-media introductory art program will highlight various fine art techniques such as drawing with pencil, painting with acrylics and so much more! All materials will be provided. This is a live program delivered virtually through Microsoft Teams.

6 - 11 Years

PAINT NIGHT

Join virtually for an evening of fun and artistry through a guided acrylic painting experience, all skill levels welcome. Required paints and canvas are included with the purchase of an Art Kit.

10+ Years

Cooking & Baking

JUNIOR CHEF

Join this fun interactive cooking class focused on introductory skills such as how to follow a recipe, basic cooking skills and kitchen safety. Participants will be hands-on in their own kitchen to create dishes through virtual (Microsoft Teams) instructions that they can share with their family. Recipes will vary weekly and participants will receive an emailed ingredient list prior to the program start date. Recipes provided may include allergens, please substitute as needed.

6 - 14 Years

BAKER'S DOZEN

Join this fun interactive baking class focused on introductory skills such as how to follow a recipe, basic decorating techniques and kitchen safety. Participants will be hands-on in their own kitchen to create treats through virtual (Microsoft Teams) instructions that they can share with their family. Recipes will vary weekly and participants will receive an emailed ingredient list prior to the program start date. Recipes provided may include allergens, please substitute as needed.

4 - 12 Years

Educational

3D MODELING AND PRINTING

Children will learn how to design and model 3D objects from animals, to their favourite movies and video games. They will work towards moving pieces and anything else they can imagine! A 3D printer will be shown online for the students to see and learn how it works. Note: 3D models will be printed and distributed at an additional cost. Required: a computer (PC or Mac), microphone and speakers.

8 - 12 Years

CARTOON COMPUTER ANIMATION

Dive into animation technology. This program will enhance your child's creativity and bring their inspiring stories to life incorporating the 12 principles of animation. In this program, children will animate their own characters, create animated shorts and a final cartoon movie while developing logical thinking skills. Required: an Apple iPad, Android tablet or computer with microphone and speakers.

7 - 11 Years

CARTOON DIGITAL ANIMATION

This course is for anyone who has artistic aspirations of creating stories through digital animation. Participants will incorporate 12 principles to animate their own characters, create animated shorts and a final cartoon movie. Required: an Apple iPad, Android tablet or computer with microphone and speakers.

10 - 14 Years

CODE WITH RUBY: INTRO TO SYNTAX PROGRAMMING

By developing their own versions of games such as Agar.io, Snake, Asteroids and more, participants will build foundational knowledge in the programming language Ruby. It has a very easy syntax (text based), reads as English and is a good introduction for new programmers or those who want to transition from drag and drop coding. Required: a computer (Mac or PC), microphone and speakers. A link will be provided for download as well as software instructions.

12 - 15 Years

GAMES AND ANIMATIONS PROGRAMMING

This program introduces kids to the amazing world of computer programming. Using Scratch (from MIT), a fun and easy to use software; kids will have great adventures creating games and animations. Participants will be solving problems, designing games & animating characters while communicating ideas using stackable blocks of code. Required: a computer (PC, Mac or Chromebook), microphone and speakers.

8 - 11 Years
