

Building Permit Information Sheet

As a result of the recent flood, you may be wondering if Building Permits are required to repair or replace the damages to your home.

A Building Permit is required for the following work:

- Wood Framing
- Replacement of Insulation
- New partition walls
- Interior alterations including finished basement
- Basement Apartments
- Relocation or repairs to any plumbing work
- Replacement of furnace
- Changes to ductwork

You do not require Building Permit for the following work:

- Basement Finishes such as wood flooring, laminate flooring or carpet
- Replacement of existing drywall for which a Permit was previously obtained
- Painting or Wallpaper

Please refer to the Town's homeowners Guide to Building Permits for additional information:

<https://www.caledon.ca/en/live/building-renovation>.

Contact

Please contact Building Services should you have any further questions or would like an Inspector to visit your home to determine if you require a permit.
