**File Number:** PRE 2023-0116  
**Meeting Date:** February 1<sup>st</sup>, 2024

**Lead Planner:** Alex Mior, Development  
**Expiry Date:** August 9<sup>th</sup>, 2024

## Purpose and Advisory Information

In accordance with the *Planning Act* and pursuant to By-law 2022-052, applicants are required to complete Pre-Consultation with the Town which consists of an Inquiry Meeting, a Preliminary (PARC) Meeting and Pre-Consultation (DART) Review, prior to submission of development applications.

It is important to note that all comments provided at the PARC Meeting and contained within this document are preliminary only and based solely on the information that was made available at the time of the meeting. This meeting does not imply or suggest any decision whatsoever on behalf of the Town of Caledon. Once the Pre-Consultation (DART) Review or an application has been submitted and is in circulation, additional information may be required during the processing of the application.

The proposal as described on this form has been reviewed at a Preliminary (PARC) Meeting and the 'complete' application requirements are outlined in this document. If an application does not contain the items outlined in this document, the application will be deemed incomplete and will not be accepted by the Town of Caledon.

As per By-law No. 2022-052, a new Preliminary (PARC) Meeting will be required should the Pre-Consultation (DART) Review or application not be submitted by the expiry date. If additional consultation is required, it should be held prior to the expiry date to ensure all matters have been addressed.

If the applicant does not contact Town Staff for clarification of this document, within 10 business days of receiving this document, the applicant acknowledges that the requirements outlined within this document must be submitted for the application to be considered 'complete'.

- Applicant to demonstrate how this proposed development will ensure pedestrian connections on Shore Street reflect the updated pedestrian level of service expected with the increased density of the proposed apartment building. Please consider connecting the existing sidewalk which ends approximately 20 meters west of Hwy 50 to the existing walkway connection from Elmwood Drive to Short Street/Oak Street intersection. Applicant should schedule a discussion on feasible pedestrian connections with relevant Town Staff through the lead planner or include proposal as part of subsequent submissions.
- Site accesses along Town Roads should be designed according to the requirements outlined within the OPSD 350.010 drawing. Consideration should also be given to clear throat lengths, sight distance, access spacing, and corner clearance. Pavement markings and signage should be considered within the proposal and included within the proposed site plan or its own Pavement Markings and Signage Plan.
- Barrier-free accessible spaces should be designed according to the requirements contained within Schedule K of the Town's Traffic By-Law 2015-058.
- A Fire Route should be illustrated in the proposed site plan. Standard requirements include: driveway and drive aisles with a minimum width of 6m; centerline radius of minimum 12m; vertical clearance of minimum 5m; turnaround facilities for any dead-end portion of the access route more than 90m long; and 'Fire Route No Parking' signage should be proposed as required by the Town's Traffic By-Law 2015-0058.
- Parking spaces should be provided as per the rates in the Zoning By-Law. If less than the required parking spaces are proposed, a parking justification should be prepared. The consultant should circulate a workplan (Terms of Reference) for the parking justification study with Town Transportation Staff prior to starting the parking portion of the investigations.
- Applicant should confirm the parallel parking space length meets industry best practices and recommendations.
- Please follow the Town's Transportation Study Guidelines.

Finance Department, Finance

- If the proposed development (4-Storey Apartment Building with a unit count of 19) were to proceed as planned, the property's taxable assessment value would change to reflect the development that would have taken place. Development Charges will be applicable at the Residential rates that will be in effect on the dates of building permit issuance.
- Development Charges are indexed twice a year, February 1st and August 1st. Currently, those rates are:
  - Town of Caledon: (a) \$32,181.71 per Apartment/Large Unit (> 70 m<sup>2</sup>); (b) \$18,885.92 per Apartment/Small Unit (<= 70 m<sup>2</sup>).
  - Region of Peel: (a) \$51,194.40 per Apartment/Large Unit (> 70 m<sup>2</sup>); (b) \$27,075.26 per Apartment/Small Unit (<= 70 m<sup>2</sup>). Effective February 1, 2016, the Region of Peel began collecting directly for most hard service development charges (i.e. water, wastewater and roads) for residential developments, at the time of subdivision agreement execution.
  - Go-transit: (a) \$566.39 per Apartment/Large Unit (> 70 m<sup>2</sup>); (b) \$293.51 per Apartment/Small Unit (<= 70 m<sup>2</sup>).
  - School Boards: \$4,572 per any residential unit.
- The applicant may receive credit for development charges previously paid relating to any existing dwellings that may be demolished to support the new project.
- The Development Charges comments and estimates above are as at January 24, 2024 and are based upon information provided to the Town by the applicant, current By-laws in effect and current rates, which are indexed twice a year. For site plan or rezoning applications determined to be complete on or after January 01, 2020, and the approval of the application occurs within 2 years, Development Charges are calculated at rates applicable on the date when an application is determined to be complete; and are payable at the time of building permit issuance. Interest charges will apply for such applications. For site plan or rezoning

### Archaeological Assessment

- The subject lands are identified as having archaeological potential. Based on the concept plan, all parcels are subject to redevelopment. As such, the proponent shall retain an archaeologist, licensed by the Ministry of Citizenship and Multiculturalism (MCM) under the provisions of the Ontario Heritage Act (R.S.O 2005 as amended), to carry out and submit a Stage 1-2 archaeological assessment on the portion of the subject lands to be impacted by the proposed works plus a 10m buffer (the "Study Area").
- Should any significant archaeological resources be encountered, the development proponent shall mitigate any adverse impacts through preservation or resource removal and documentation (Stages 3-4 archaeological assessment) to the satisfaction of the MCM and the Town of Caledon Heritage staff prior to development approval. The archaeological assessment(s) must be completed in accordance with the most current [Standards and Guidelines for Consultant Archaeologists](#).
- No demolition, construction, grading or other soil disturbances shall take place on the subject lands prior to the Town of Caledon Heritage staff receiving, to their satisfaction, all completed archaeological assessment(s) and the MCM compliance letter(s) indicating that all archaeological licensing and technical review requirements have been satisfied and the report(s) has been entered into the Public Registry.
- Significant archaeological resources will be incorporated into the proposed development through either in situ preservation or interpretation where feasible or may be commemorated and interpreted through exhibition development on site including, but not limited to, commemorative plaquing.
- If the subject lands were previously assessed, the development proponent must provide a copy of the archaeological assessment(s) and the associated MCM compliance letter(s) indicating that all archaeological licensing and technical review requirements have been satisfied and the report(s) has been entered into the Public Registry.
- An archaeological condition will be included as part of agreements related to the application, should it be approved, for clarity as to the process required should
