NOTES:

- Where an RR lot is fully serviced, the provisions of the R1 Zone identified with this footnote shall apply.
- Although exceeding minima permitted by the Zoning By-law, the proposed distance between both Detached Dwellings is 7.50m and the proposed green band / swale located @ the Division line makes for a sufficient setback between the two homes.
- This rear yard setback exceeds the minima permitted however the design itself does not change the overall intention outlined within the "Town Wide Urban Guidelines"
- GFA does not include enclosed 2-car garage
- Finished Grade means the average surface elevation at the outside walls of any building or structure, which is determined by taking the arithmetic mean of the levels of the finished ground surface at every location of change of grade at the outside walls of the building or structure." Section 3 definition of the City of Caledon Zoning By-law
- Deck means a structure abutting a dwelling with no roof or walls except for visual partitions and railings which is constructed on piers or a foundation above-grade with access to grade by stairs and for use as an outdoor living area." Section 3 definition of the City of Caledon Zoning By-law
