Re: Addendum – 12415 Colerain Drive ENIS/AAR

Aercoustics Engineering Limited was retained by Dig-Con International Limited (Dig-Con) to prepare an Acoustic Assessment Report (AAR) and Environmental Noise Impact Study (ENIS) for a proposed Hot Mix Asphalt plant located at 12415 Coleraine Drive.

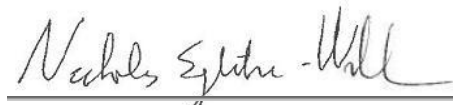

Both the AAR and ENIS state in Section 4 that a house to the immediate north of the proposed development would be demolished prior to development and would not be a noise sensitive point of reception. This statement is incorrect – the property to the immediate north of 12415 Coleraine Drive in Bolton, identified as 12423 Coleraine Drive, is owned by Rafat General Contractors (Rafat).

In an attached letter, provided by Rafat, it is stated that the property at 12423 Coleraine Drive is currently being renovated for office use, and therefor will not function as a noise sensitive point of reception. It is further stated that no sensitive land use, such as a residence or day-care, will be developed on that property. As such, the findings of both the ENIS and AAR are unaffected and land use compatibility is maintained.

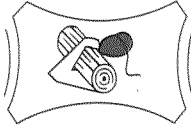

Yours truly,

Kohl Clark, B. Eng.

Nicholas Sylvestre-Williams, M.Eng., P.Eng., INCE

To Whom It May Concern;

Re: 12423 Coleraine Drive Bolton, ON

I, Carlo Salim, am the President of Rafat General Contractors, which is the owner of the property municipally-known as 12423 Coleraine Drive. I confirm that the dwelling located on the property is not being used for residential purposes and is currently being renovated for offices uses in compliance with the applicable zoning (MP) for the lands. The dwelling on the property has not been used for residential purposes since 2017. Further, when the site is developed, these premises will be demolished. I also confirm that I will not use the property as a daycare facility.

Should you have any further questions or concerns, please feel free to contact our office.

Sincerely,

Carlo Salim
Rafat General Contractors
