- ## GENERAL NOTES
1. Do not scale the drawings. All dimensions are in millimeters unless noted otherwise.
 2. This drawing is to be read in conjunction with the architectural drawings prepared by project architect and the engineering drawings.
 3. The contractor shall check and verify all dimensions and conditions on the project and immediately report any discrepancies to the Landscape Architect before proceeding with the work.
 4. The contractor is to be aware of all existing and proposed services and utilities. The contractor is responsible for locating all underground services and utility lines marked by other agency having jurisdiction prior to commencing work.
 5. Do not leave any holes open overnight.
 6. Keep all existing construction close and aware by others at all times.
 7. The contractor shall be responsible for the construction area in the form of each work day.
 8. Contractor shall maintain a detailed record of all submittals/changes in the form of a meeting each workday. These records shall be submitted to the Landscape Architect as a condition of obtaining substantial completion.
 9. Contractor is to make good a damage resulting from the work, or at additional cost.
 10. Plant quantities indicated on the plan supersede the quantities from the plan (or the plant) as they differ to the Landscape Architect.
 11. Contractor shall copy the Landscape Architect prior to installation of any tree turnins. Final location of tree turnins shall be confirmed with the Owner and Landscape Architect.
