

This Greenway Corridor has an important function in the community!

- it provides trails to connect the community
- it operates as a naturalized open space
- it facilitates the movement of flora and fauna
- it assists in maintaining ecological processes
- it supports the local environment and watershed

To ensure the greenway can function at its best, it has been designed as a naturalized landscape that receives minimal maintenance; please do not alter it in any way.

It takes everyone to keep Caledon healthy and green!
