Re: Superior Tanker Shuttle Accreditation Effective October 2nd, 2023

I am pleased to advise you that the Fire Underwriters Survey has evaluated your test results and application for accreditation to deliver Superior Tanker Shuttle Service and has determined that your fire protection district qualifies for accreditation.

Your fire protection district name has been added to the list of accredited agencies for the delivery of Superior Tanker Shuttle Services and the appropriate changes have been made to the Canadian Fire Insurance Grading Index.

Please find the enclosed certificate of accreditation and a brief letter of recognition.

As an accredited agency, constituents within your fire protection district who own detached dwellings and are within a qualifying road distance of the responding fire station (8 kilometres from a fire station and 5km from a certified water refill site – DPG, 5 kilometres from a fire station and 2.5km from a certified water refill site - PFPC), are eligible to receive a significant cost reduction in their fire insurance rates from the majority of insurers in Canada. Insurers utilize the information provided by Fire Underwriters Survey in setting property insurance rates throughout Canada. Insurers are advised that Superior Tanker Shuttle Service (STSS) Accredited fire protection districts qualify for hydrant protected equivalency status and may be rated as protected.

It should also be noted that insurers are under no obligation to accept this equivalency; however, the Fire Underwriters Survey recommends that they do so.

As the Surveyor for the province of Ontario, I must advise you that the Superior Tanker Shuttle Service (STSS) Accreditation and benefits associated with the accreditation are contingent upon the fire protection district being capable of continuously meeting the requirements of the Superior Tanker Shuttle Service delivery and being continuously able to provide evidence of such capacity upon request. Should the capacity of the fire protection district to deliver this level of service change at any time, notification should be made immediately to the offices of Fire Underwriters Survey. Fire Underwriters Survey retains the right to revoke Superior Tanker Shuttle Service (STSS) Accreditation at any time.

The accreditation period is 5 years from the date of this letter. To maintain accreditation, the fire department must document practice of Tanker Shuttle Service; this documentation must be available for review.

RECOGNITION FOR FIRE INSURANCE GRADING RECEIVED

Caledon Fire and Emergency Services

Superior Tanker Shuttle Service - Accredited

I am pleased to advise you that the above-mentioned fire protection district within the province of Ontario was recently registered in the fire insurance grading index as being accredited for the delivery of Superior Tanker Shuttle Service.

The requirements for this accreditation are stringent and verify that the fire protection district is capable of delivering the minimum accepted fire flows to detached dwellings throughout the fire protection district and within 8 kilometres by road of the below accredited Fire Station. An application towards Commercial Lines (PFPC) insurance has also been achieved by exceeding the 467 IGPM PFPC flow rate requirements. This accreditation is an equivalency to the minimum requirements for hydrant protection, as set out by the insurance industry and the Fire Underwriters Survey.

Fire Underwriters Survey has provided information on fire protection and risk levels to the insurance industry in Canada since 1883. Fire Underwriters Survey was previously operated under the auspices of the Insurers Advisory Organization and CGI; however, is now operated by Opta Information Intelligence.

Should you have any questions or concerns related to the Fire Underwriters Survey, the Superior Tanker Shuttle Service Accreditation process, or any other related area, please contact the offices of Fire Underwriters Survey for further information.

Please note that this accreditation expires on October 2nd, 2028 and is valid for the following fire station:

- Fire Station 301: 19630 Main St., Alton
- Fire Station 302: 14002 Highway 50, Bolton
- Fire Station 303: 6085 Old Church Rd., Caledon East
- Fire Station 304: 14190 Creditview Rd., Terra Cotta
- Fire Station 305: 67 Mckenzie St., Inglewood
- Fire Station 306: 17177 Highway 50, Palgrave
- Fire Station 307: 2 Snelcrest Dr., Caledon
- Fire Station 308: 6000 Highway 9, Mono Mills
- Fire Station 309: 3611 Charleston Srd. Caledon

Personal Lines Fire Insurance Classification – DPG 3B(S) – Flow Rate of 467 IGPM

Commercial Lines Fire Insurance Classification – PFPC 6(S) – Flow Rate of 467 IGPM
