Hi Genevieve,

The Ministry is aware of the Caledon Quarry development proposal along with the conclusions and recommendations identified in the Traffic Impact Study. The Ministry regularly monitors traffic operations and safety on Highway 10 and will implement improvements, as required.

Thank you,

David Pillay

Corridor Management Planner, Peel/Halton | Highway Corridor Management Section

Ministry of Transportation | Ontario Public Service

Hi, Nicole and David:

I am following up on my comment request below.

Will MTO provide a response to the application materials, Region's comments or Town peer reviewer comments?

Please advise as soon as possible.

Thank you,

Genevieve

Hi, David and Nicole,

The Town of Caledon is holding a 2nd Public Meeting for the CBM Caledon Quarry Proposal on **January 29th, 2026**.

As this is not a mandatory Public Meeting under the Planning Act, I don't believe there will be a formal agency circulation.

However, it would be ideal to have MTO comments prior to the meeting.

I provided the March 2025 applicant response materials to MTO in August.

Since then, we have received an additional memo, dated October 31, 2025, from the applicant's consultant, TYLin (attached). The memo stems from comments provided in a September 26, 2025, transportation experts' meeting held among the Town's peer reviewer, the applicant's consultant and staff of the Region.

In December, 2025, the Town's peer reviewer finalized a 2nd set of review comments (also attached).

Please note, there have been some updates to the ARA Site Plans since March 2025 so I have also included the latest site plan set.

If MTO staff could please review the March 2025 submission materials, alongside the October 31, 2025 memo and December 5 2025 peer review and get back with comments by **January 9, 2026**, it would be appreciated.

Please note, there have been some updates to the ARA Site Plans since March 2025 so I have also included the latest site plan set.

Thank you and any questions, please reach out,

Genevieve

Good afternoon, Genevieve,

Thank you for contacting the Ministry to inform of the updates following peer review. Usman Akhtar is no longer the MTO Planner in Peel Region; [@Pillay, David \(MTO\)](#) will resume any necessary follow up for comments and will advise any comments from MTO in due course.

If you have any questions, please feel welcome to ask.

Kind regards,

Nicole Hajjar (She/Her)

Corridor Management Officer | Central Region West | Operations Division

Good afternoon,

Further to MTO's November 8, 2024 comments related to the above noted proposal, below please find a link to an updated Traffic Impact Study (March 2025), along with updated Aggregate Resources Act Site Plans and a Comment Chart wherein the applicant's consultant has provided a response to Peer Review comments. These materials have been circulated by the Town to the Region, CVC and NEC for comment as part of the Caledon Aggregate Agency Review Team (CAART) process and the Town has received comments from the Region which are attached for MTO's consideration. Of note, the Region's comments identify certain intersections which may require improvements which fall under MTO's jurisdiction and the Region has requested MTO to provide comments in this regard.

These materials have also been forwarded to the Town's Peer Reviewer for its review. Once we are in receipt of the peer review comments, we will forward them for your review and consideration.

Please review and if MTO has any further comments related to this application at this time, please provide them at your earliest convenience.

Thank you in advance and if there are any questions, feel free to reach out,

Genevieve Scott
