Hotspots

Check out the internet with your library card!

Caledon Public Library is now offering mobile Wi-Fi hotspots which provide internet access to Wi-Fi enabled devices such as smartphones, tablets, laptops and PCs. The hotspots are great for job seekers, students, or anyone who needs to access the internet outside the library. Library members can sign out a mobile hotspot just as they would a book, magazine or any other library resource.

Caledon Business Innovation Zone

Pool Water Drainage

Do you own or maintain a pool, spa, or hot tub?

Did you know that draining swimming pool, spa, or hot tub water into the storm drain is prohibited in the Town of Caledon? Storm sewers lead directly to our local waterways, and the additives and chemicals used in the water can be harmful to the natural environment, as well as our drinking water! For more information, including other environmentally-responsible means of draining pool, spa or hot tub water, please visit caledon.ca/pooldrainage.

Bolton HCD

Caledon's first heritage conservation district, the Village of Bolton Heritage Conservation District (Bolton HCD), is now designated under the Ontario Heritage Act. The Bolton HCD Plan provides policies and guidelines for managing change within the District, and ensuring the neighbourhood's cultural heritage is conserved.

To assist with heritage conservation projects, properties within the designated area may be eligible for the Town's Designated *Heritage Property Grant Program* and the *Bolton Community Improvement Plan* financial incentives programs. For the Bolton HCD Plan, grant details, boundary map and more, please visit caledon.ca/boltonhcd.

Caledon OPP Serving You

Traffic related issues are among the top matters reported to police by Caledon residents.

These range from speeding, aggressive driving, stop signs violations and impaired driving. Our Traffic Unit conducts daily enforcement to address these issues and our highly trained

Commercial Motor Vehicle Inspectors conduct inspections to ensure that vehicles, drivers, and companies are following the rules. We continuously use technology and data to identify areas of concern in an effort to increase roadway safety within our community. If you have a traffic safety concern please call: 1.888.310.1122 to report it!

Transit Feasibility Study

The Town of Caledon is undertaking a Transit Feasibility Study to evaluate the possibility of providing public transit within Caledon and to the neighbouring municipalities. Please visit caledon.ca/tfs and let us know why do you think transit is important for Caledon.

Cycle in Caledon

Whether you are an avid road cyclist, a recreational tricycle rider, or a commuter who cycles to work, there are many scenic off-road trails and on-road routes waiting for all cyclists to explore. The Town is moving forward with a signed bike route pilot project which includes defining five routes for cyclists of different skill level and installing cycling amenities prior to the cycling season. Most recently the Town was a recipient of a Bronze Bicycle Friendly Community Award. The Town can now be considered a Bicycle Friendly Community, and collectively, the Region of Peel can now be considered a Bicycle Friendly Region.

Celebrate Caledon

The weekend to be in Caledon.

Check out our Craft Beer and Cider Festival, a cycling event in support of Caledon seniors or family friendly fun, food and entertainment, including the headline act, Matthew Good. There's a little something for everyone!
